PROFESSIONAL EXPERIENCE

BEEONCODE LLC

Yerevan, EVN

FRONT-END DEVELOPER

11.2022 - Present

- Designed and developed numerous modern and responsive landing pages, focusing on visually appealing UI/UX and smooth user interactions through the use of advanced animations.
- Built complete websites from the ground up using JavaScript and frameworks like ReactJS and NextJS, ensuring clean architecture, scalability, and maintainability.
- Developed and fine-tuned advanced filtering systems, including product filters and tag-based filters, significantly improving navigation and user experience.
- Integrated payment gateways into various web platforms, delivering secure and user-friendly checkout flows across devices.
- Provided continuous support and enhancements for government and educational institution websites, including restoration of older systems, feature extensions, and general maintenance.
- Identified and fixed a wide range of bugs, applying debugging techniques to ensure high performance and seamless user interaction.
- Implemented Single Sign-On (SSO) mechanisms to streamline user authentication and enhance platform security.
- Applied effective SEO strategies, including metadata management, structured markup, and performance optimizations, to improve the discoverability and search engine ranking of developed websites.
- Followed Agile development methodologies, including iterative planning, daily stand-ups, and sprint reviews, to ensure timely delivery of high-quality, user-focused web solutions while maintaining flexibility to adapt to changing project req
